Fees are \$10.00/pre-collection application, \$50.00/site, and \$0.10/lb of clean seed if tags are requested. Additional fees for drive time, inspection time, and mileage (standard IRS reimbursement rate) will be incurred.

-Complete a separate application for each species to be collected. For species that occur in harvestable stands over broad non-contiguous areas, an application must be filed for at least each species/county area.

-Application must be completed and mailed/faxed/emailed to the NDA via the contact information below. These applications are to be submitted preferably one month prior to collection.

-The Department of Agriculture will verify collection sites by spot checking before, during, or post-harvest.

I hereby apply for certification of wildland collected plant material from the above described site. I agree to abide by all rules and regulations governing certification adopted by the Nevada State Department of Agriculture under the auspices of the Association of Official Seed Certifying Agencies.

-The collector or seed broker must:

a) label all bags or containers with a field lot #, b) store seed so it's easily inspected, and c) blend field lots only with appropriate permissions.

-Certification tags for wildland collected seed are issued based on source, genetic identity and purity only.

-The purpose of this form is to provide further information regarding distribution of species, selectiveness in collection, and physical characteristics of site and associated species.

-Permitting further generations is a decision typically made by the applicant, certification authority, and plant scientists familiar with the species' ontogeny and reproductive type.
